

Web Services

BUSINESS ISSUE

In light of the transformative effect of the Internet, many colleges and universities see enormous opportunities to leverage new technologies to enhance service levels. Web enablement of basic university administrative functions such as admissions, registration, and enrollment is increasingly perceived as a necessity today. Fueled student expectations for convenience and speed of service are the direct result of the spread of the Internet in the private sector.

SOLUTION

Our web modules allows students and staff to access the institutions' databases via the Internet, 24 hours a day, 7 days a week. That means they can quickly and easily access the data they need from a remote location anytime they want. Students can review your detailed course schedule allowing them to quickly and easily evaluate their education options and determine which classes to register for or view grades.

AGRESSO Web Services and Agresso Campus World bring together into one simple interface all the web-enabled capabilities of AGRESSO. This personalized gateway can be accessed from anywhere in the world using just a simple web browser.

One Size Fits One

Next Step: One Size Fits You!

Agresso would like to exceed your expectations as we have for so many other higher education institutions in North America and Europe. For more information, telephone us at **888-AGRESSO** (888-247-3776) or visit us at www.agresso.com

A **UNIT4**AGRESSO Company
